Introduction of Hai Van Pass Tunnel Construction Project in Vietnam

- Introduction of Project**, Background of the Project

The Hai Van Pass located in coastal Central Vietnam, is the biggest traffic bottleneck on the National Highway No.1, which is the most important North-south longitudinal arterial linking the capital Hanoi with Ho Chi Minh.

The Pass rises to an elevation of 475 m for approximately 20 km with continuous small curves and steep grade. From the late 1990's, the rapid development of national economy has increased the logistic volume through the Pass, however, the heavy tracks have been forced to run slowly and fatal traffic accidents increased year by year.

In addition, the road is often blocked due to the landslide and slope failure during the rainy seasons.

Under such circumstances, the Government of Vietnam decided to construct a new highway segment with a tunnel under the Hai Van Pass by the Prime Minister's Decree in March 1994.

17 June 2005 IRF2005 in Bangkok 25

Introduction of Hai Van Pass Tunnel Construction Project in Vietnam

## Project Major Features

17 June 2005 IRF2005 in Bangkok 26

Introduction of Hai Van Pass Tunnel Construction Project in Vietnam

- Introduction of Project**, Project Major Features

1) Project Length:	12,182m (incl. Tunnel = 6,280m, Bridges = 1,653m)
2) Traffic Lane:	2 Lanes (Stage I, Bi-directional)
	1.25 (shoulder) +3.75 (Carriageway) +3.75+1.25, Total 10.0m wide
3) Operation System:	SCADA (Supervisory Control And Data Acquisition)
4) Tunnel Length:	6,280m (Main Tunnel, MT), 6,286m (Evacuation Tunnel, ET), 1,888m (Ventilation Adit, VA) <b>Total 14,454m</b>
5) Tunneling Method:	NATM (New Austrian Tunneling Method)
6) Cross-section:	89m2(MT), 15.5(ET), 36.2(VA)
7) Cross-Passage:	400m interval
8) Ventilation System:	Longitudinal System, 23 Jet Fans, 3 EPs, 1 VA
9) Bridge Number and Length:	8 bridges, 1,653m in total length
10) Toll Plazas:	Two plazas on both ends of project roads

17 June 2005 IRF2005 in Bangkok 27

Introduction of Hai Van Pass Tunnel Construction Project in Vietnam

## Traffic Demand Forecast

17 June 2005 IRF2005 in Bangkok 28

Introduction of Hai Van Pass Tunnel Construction Project in Vietnam

- Introduction of Project**, The Hai Van Pass, Traffic Through Hai Van Pass (1)

✓ 30 % of traffic volumes are between Danang - Hue

✓ 20 % of traffic volumes are between Ho Chi Minh City - Hanoi

(Origin-Destination Survey July 2002)

17 June 2005 IRF2005 in Bangkok 29

Introduction of Hai Van Pass Tunnel Construction Project in Vietnam

- Introduction of Project**, The Hai Van Pass, Traffic Through Hai Van Pass (2)

Past Trend of Traffic Volume at Hai Van Pass

ADT (Vehicles/day)

Year

Average Growth 17%

- Motorcycle
- PC, Pickup, Jeep
- Van & SB, MB
- Large Bus
- Pickup Truck
- 2-axle Truck
- 3-axle Truck
- 4 and more axle truck

TRAFFIC FORECAST

17 June 2005 IRF2005 in Bangkok 31

Introduction of Hai Van Pass Tunnel Construction Project in Vietnam

- Introduction of Project, 2nd Tunnel Construction

17 June 2005 IRF2005 in Bangkok 32

Introduction of Hai Van Pass Tunnel Construction Project in Vietnam

## Distinct Points of the Project

17 June 2005 IRF2005 in Bangkok 33

Introduction of Hai Van Pass Tunnel Construction Project in Vietnam

- Introduction of Project, Distinct Points of the Project

- 6.3km long tunnel; longest highway tunnel in Southeast Asia,
- First Application of New Austrian Tunneling Method (NATM) in Vietnam,
- Application of Longitudinal Ventilation System, including Electrostatic Precipitator (EP), Ventilation Adit and 23 Jet Fans,
- Application of integrated overall operation control system said SCADA (Supervisory Control And Data Acquisition), and
- Operation and Maintenance (O&M) Company Required.

17 June 2005 IRF2005 in Bangkok 34

Introduction of Hai Van Pass Tunnel Construction Project in Vietnam

## Project Implementation Program

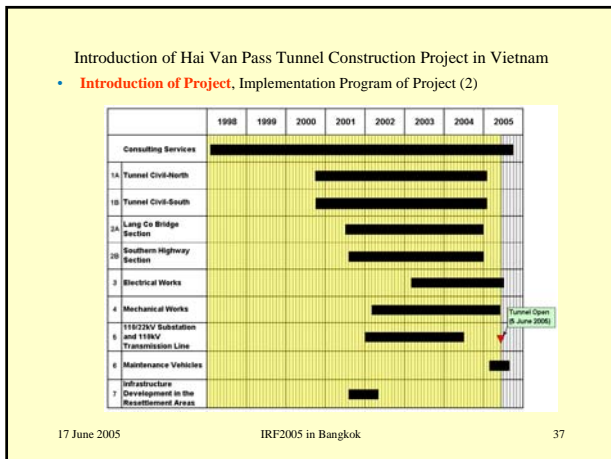

17 June 2005 IRF2005 in Bangkok 35

Introduction of Hai Van Pass Tunnel Construction Project in Vietnam

- Introduction of Project, Implementation Program of Project

	1998	1999	2000	2001	2002	2003	2004	2005
Consulting Services	[Bar spanning 1998-2005]							
Preliminary Study	[Bar spanning 1998-1999]

## O&M Company Required

17 June 2005 IRF2005 in Bangkok 38

Introduction of Hai Van Pass Tunnel Construction Project in Vietnam

- Introduction of Project, Operation and Maintenance Company Required

For the operation and maintenance of the first long highway tunnel in Vietnam, HAMADECO, O&M Company, was established by referring the Japanese practice.

Followings have been advised:

- O&M Company (Established in April 2004)
- O&M Manuals
- O&M Training
- Emergency Response Training
- Tunnel Standard Operation Plan (SOP)

17 June 2005 IRF2005 in Bangkok 39

## Project Financial Report

17 June 2005 IRF2005 in Bangkok 41

Introduction of Hai Van Pass Tunnel Construction Project in Vietnam

- Introduction of Project, Project Scale

1) Organization Structure

Organization	Name
Financing Agency	Japan Bank for International Cooperation (JBIC)
	J/A No. VND-5, March 26, 1997, Loan Amount: JPY 5.5 billion
	J/A No. VND-5, March 30, 1999, Loan Amount: JPY 10.0 billion
	J/A No. VND-4, March 29, 2002, Loan Amount: JPY 3,359 billion
	Total JPY 18,859 billion
Executing Agency	Project Management Unit No. 85 (PMU85) under Ministry of Transport and Communications (MOT)
Consultant	Joint Venture of Nippon Koei Co., Ltd., Japan and Louis Berger International Inc., USA in association with Transport Engineering Design Incorporation (TED), Vietnam

2) Contract Packages

Contract Packages	Major Works	Sub Packages	Package Title	Contract (000000\$)	Amount
Consulting Services		Package 0A	North Tunnel Section	14,724	Contracted
		Package 0B	South Tunnel Section	43,200	Contracted
Package I	Tunnel Civil Works	Package 1A	Lang Co Bridge Section	27,883	Contracted
		Package 1B	Southern Highway Section	4,833	Contracted
Package II	Road and Bridge Works	Package 2A	Lang Co Bridge Section	3,320	Contracted
		Package 2B	Southern Highway Section	28,658	Contracted
Package III	Electrical Works			22,955	Contracted
Package IV	Mechanical Works			2,298	Contracted
Package V	110/22kV Substation and 110kV Transmission Line			2,898	Contracted
Package VI	Procurement of Maintenance Vehicles			413	Contracted
Package VII	Infrastructure Development in the Resettlement Areas			147,286	
			Total	147,286
