Mr. Pham Thanh Binh
Deputy General Director
Project Management Unit Thang Long

Dear Mr. Binh,

Re: *Your Request 3268/PMUTL-DA1 dated November 03, 2015 for Review of Proposal for Study and Construction of ON-OFF Ramps in Interchanges of Hoang Quoc Viet and West Thang Long, Hanoi City Ring Road No.3 Construction Project, Mai Dich-South Thang Long Section (VN13-P2)*

On your captioned proposal, we would like to inform you herewith our opinion:

Detail Design: We agree with your proposal to supplement the study of ON-OFF Ramps in interchanges of Hoang Quoc Viet and West Thang Long and widening part of the main viaduct to the current Consulting Service Contract for DD.

Construction: (i) of Off-Ramp in Hoang Quoc Viet Interchange and (ii) widening part of the main viaduct: We find the necessity to construct the items proposed by the PMU in the captioned letter. However, we will consider and issue our position upon the MOT approval of the DD subject to the availability of the Loan Agreement, time schedule of the construction and confirmed status of the land acquisition for the construction.

Sincerely Yours,

Mutsuya Mori
Chief Representative
